You have a unique opportunity to turn your assortment of products, which you offer to your customers, into the exclusive and useful offer to your creative masters.

Offer your customers the effective solutions for creating a beautiful package for gifts, souvenirs, textile compositions and their individual design.

Perhaps, every day you listen to complains of masters and sellers in shops, salons and showrooms that sometimes it is difficult to create their own author's products and make it special and unique. Often they simply cannot realize their creative ideas in the way they intend it to be.

Your customers are not always satisfied with the assortment of your company as they always lack something. And you would like to solve their problems but sometimes you do not have enough successful solutions... And you do not know what to offer them...

It is probably because your communication with your client-masters is in the process of developing.

AND WE KNOW HOW YOU CAN HELP YOUR CUSTOMERS!

Often they simply do not have enough materials that are made specifically for them to bring into life their creative ideas and they correspond to those quality parameters that are necessary for their particular creative project.

For masters of creativity and needlework, as well as for creating the unique gift wrapping, the natural and colored decorative twine is perfect for making the simple and at the same time beautiful author's design.

You will probably agree that when your customer cannot find a solution to his problem with your help, he goes to your competitor. And there is no guarantee that he will find the solution there. Now imagine the situation: your regular customer comes to the company of your competitor. He does not find there the solution of his own problem, with which he came, BUT!!! Your competitor has managers, who may draw the customer's attention away from his problem and offer him the set of products he always bought from you. Perhaps the price will be 50 cents cheaper, perhaps he agrees simply being in despair, because he has no hope of finding what he really needs. The result is the fact that you did not find something so special to offer your customer and therefore he left you.

Marketing and sociological studies of the last years have shown that Hand Made is increasingly popular. After all, each decorative creation, made individually, is unique and always of the greatest demand among the customers.

For **TM TWIST ATIK Hand Made** decor and beauty are of the biggest importance, especially in packaging. It is necessary for people to live surrounded by the beauty, as it has a good effect on the health and peace of mind of a person.

We will help you and your customers in a natural and simplest way, using beautiful packaging and textile materials, to bring to your customers' life joy and harmony from the acquisition of beautiful authentic products.

We will do everything to ensure that the products of your customers gives their customers joy and pleasure from just looking at their goods.

People will always feel the need for aesthetic pleasure - give them it with our help!

TM TWIST ATIK Hand Made is our new offer for artists of creative people, who are interested in hand-made. We have 15 years of experience in the production of natural twines and threads, made of 100% cotton, decorative colored twines and yarns, as well as twines for packaging.

As the result of the special and individual solutions that we offered our customers, their sales significantly increased. Their customers say that products and goods, packed and decorated with colored threads, encourage the memorization of the salon or store in which the purchase was made, because people remember the emotions they experienced.

Valery Muzikant, the Doctor of sociological sciences, in a series of his researches found out that the decision to buy something in the full of various goods halls and shops, is made by different consumers (ATTENTION!) only in a period of time from 4 minutes 41 s. to 8 min 15 s. Imagine how quickly the customer reacts to any of the goods, which there may be even thousands on the shelves.

That is why each manufacturer can provide the effect of 100% memorization by the creation of the so-called magnet for customers: an exclusive complement to the covering – an individual and authentic textile natural tying in the style of COLOR DECOR.

TM TWIST ATIK-food offers to use a traditional, easy to use and such irreplaceable things as natural or colored twine and thread. The assortment of twines and threads of the company includes more than 35 items. We use different modern types of threads, twines and materials. The individual offers of color combinations are simply countless. Our color map has more than 15 colors, out of which (in addition to monotone variants) more than 20 color combinations are made, which have become extremely popular among the Ukrainian manufacturers. Our line of twines and threads, which is usually updated with new color offers, is suitable for use in all decor techniques: winding with twines or colored yarns, coloring of glued twines, complex decoration with fabric, leather, beads, embroidery and lace, as well as for decorating kraft packaging.

Hand packaging and work with textile threads is a habitual and simple way of creativity and needlework. It is easy and available both for beginners and professionals with experience.

Especially for craftsmen we have created a 100% natural basic fabric, which is perfect for manual weaving of tapestries, decorative woven carpets, bed covers and other authentic woven products. Our basic fabric is very popular among numerous masters in the Ivano-Frankivsk region (Ukraine).
